What Is Politics?

Man is a animal political - Aristotle

Politics involves making commons decisions for a group of peoples.

It is the activity by which differing interests within a given unit of rule are conciliated by giving them **a share in power in proportion** to their importance to the **welfare and survival of the whole community.**

Partisipasi konvensional (*conventional participation*), seperti keterlibatan warga negara dalam partai politik, keikutsertaan dalam pemilu, ikut mempengaruhi proses perumusan kebijakan lewat media massa dan ikut menyalurkan aspirasi melalui lembaga perwakilan rakyat.

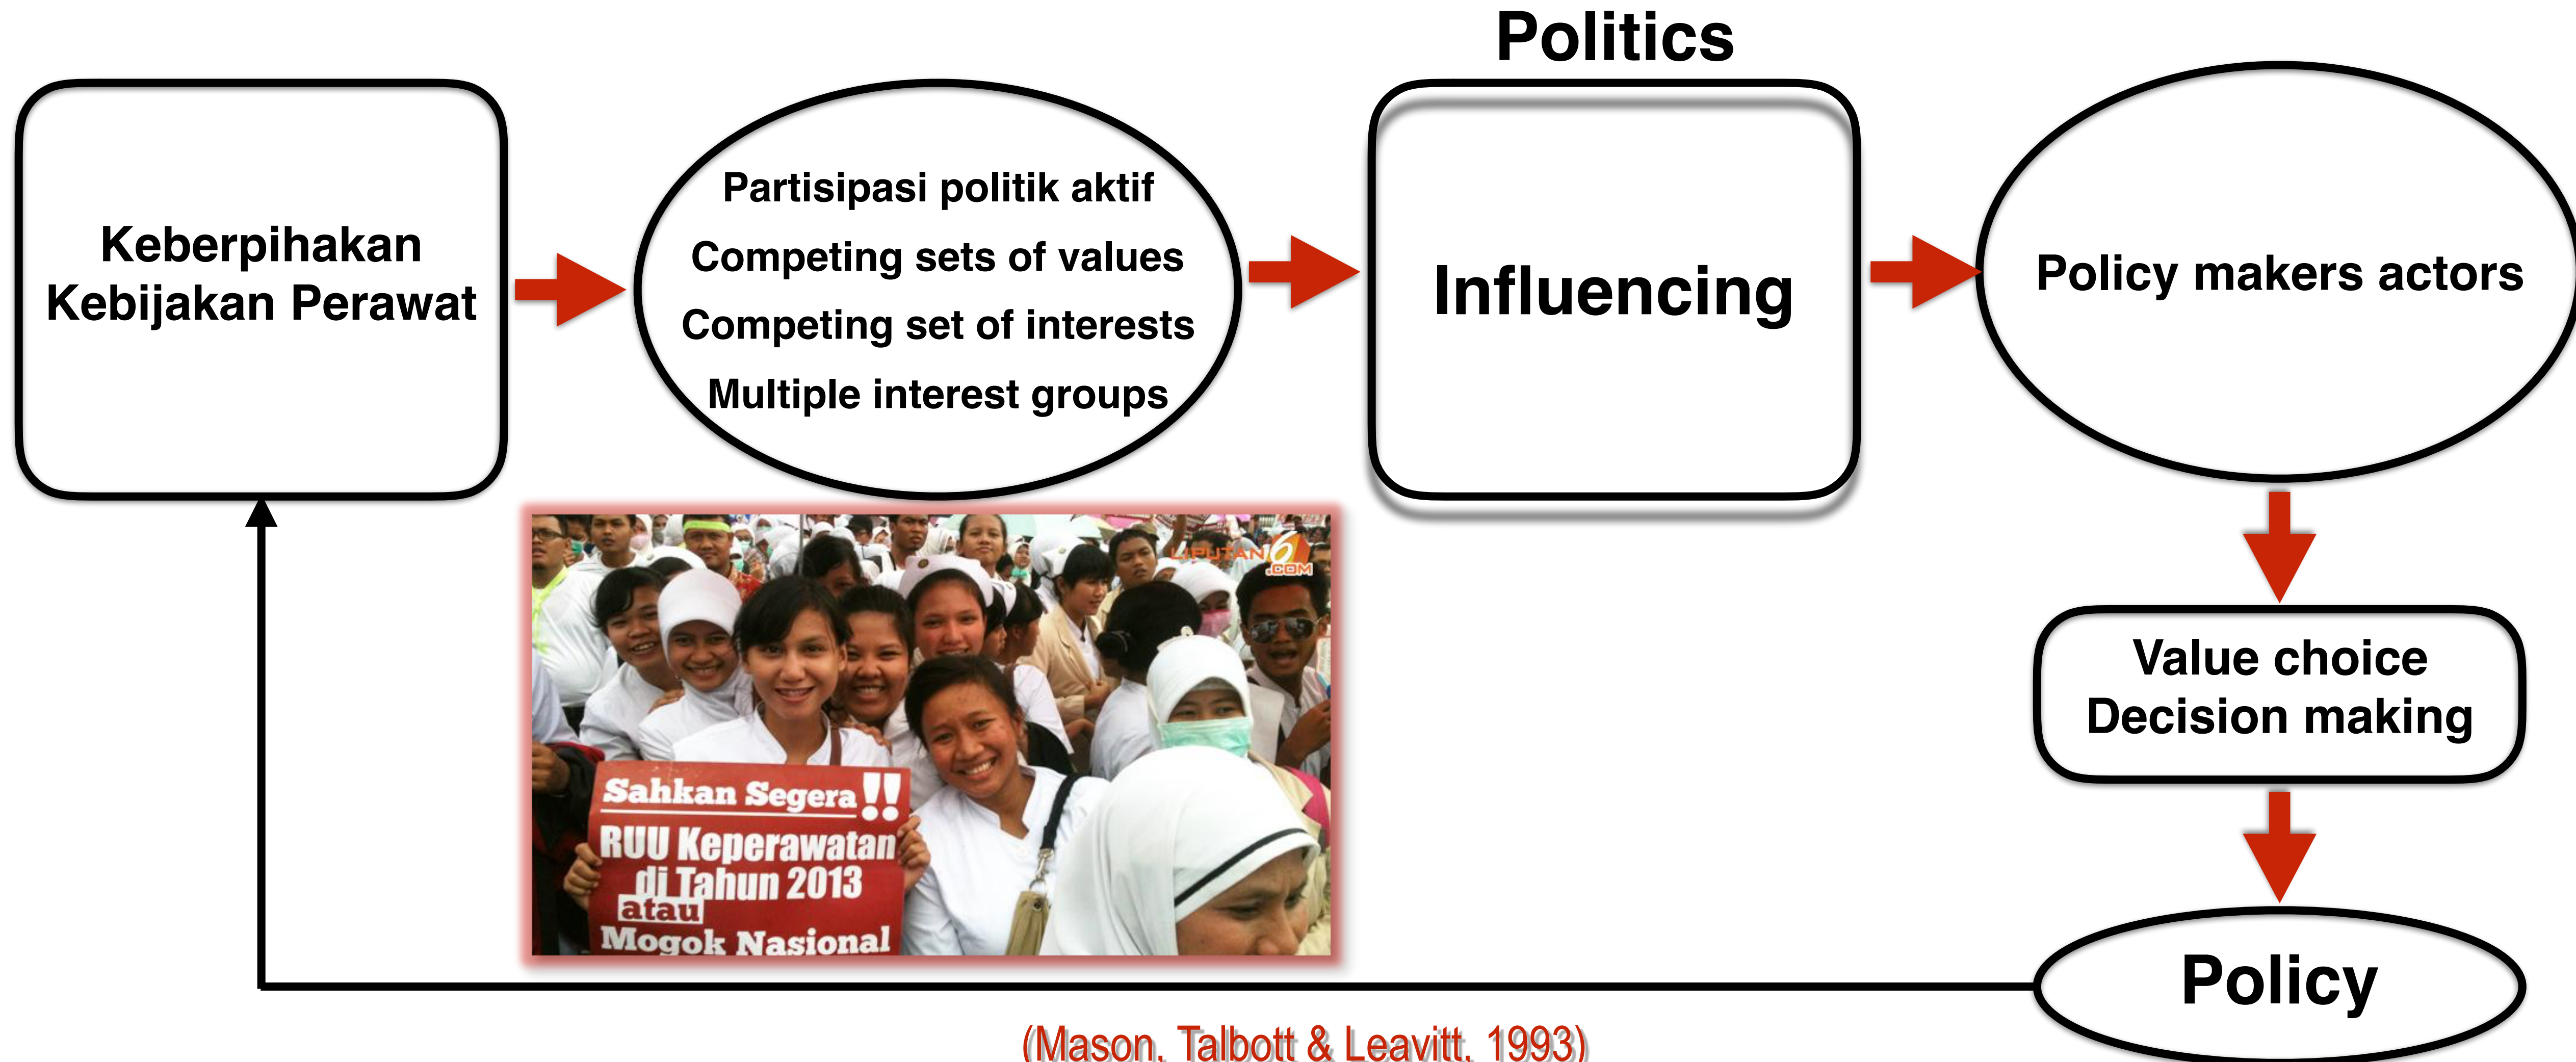

Partisipasi politik ini biasanya terjadi bila lembaga-lembaga seperti partai politik, lembaga perwakilan rakyat dan media massa dapat berperan aktif dan tidak mandul.

PARTISIPASI POLITIK

- Kesadaran politik masyarakat
- Tingkat kepercayaan masyarakat

POLITICS = INFLUENCING (MEMPENGARUHI)
